

Spray Tanning Guide

A spray tan is a safe and harmless way of achieving a beautiful tan which involves no exposure to UV light, the harmful radiation which can cause skin cancer and premature aging. A spray tan is harmless and safe and can even be carried out whilst pregnant or breast feeding. Spray tanning has no known side effects apart from a perfect looking tan!

Our Products

We use Lycon-Bronze Rapid Spray Tan which achieves a beautiful natural looking tan. After one hour, you will have a sun-kissed glow and after 4 hours, a deep bronze tan. The Lycon Tanning Formula contains 100% plant-derived DHA, Erythulose (which develops your tan over several hours), premium Bio-Melanin (a natural pigment), Aloe Vera and Vitamin E. This combination of ingredients will give you a flawless, streak free tan that will last 7-10 days.

Our Tanning Machine

The spray-tanning machine that we use emits a constant flow of high velocity air which wraps around the tanning solution effectively reducing overspray and blotches. We recommend that you carry out your tanning session in your shower or our tanning tent to reduce any product residue in your home. Any product residue can be easily washed off your shower, furniture or clothing.

Pre and Post Tanning Care

One day before your spray tan, ensure that you do a full body scrub or exfoliation to eliminate all dead skin. On the day of your spray tan, do not put any moisturizers on your skin – natural skin is best to achieve a natural tanned glow.

To apply your tan will take 10-20 minutes depending on how dark you wish to go. After your tan is complete, try to allow 15 minutes drying time before you put on any clothes. Do not shower until at least 8 hours after your spray tan (the following day is better!). During shower time the week following your spray tan, you can wash normally but do not use any harsh scrubs or exfoliates as this will make you lose your tan more quickly. Your tan should last 7-10 days but varies for each person. You will love your tan and make it part of your monthly beauty regime!
